MEMORANDUM FOR: Deputy Director for Science and Technology

FROM: Deputy Director of Central Intelligence

SUBJECT: Approval of Recommendations of Inspector
General's Report on the Office of Medical
Services (OMS)

1. I have approved the three recommendations in Tab G of the Inspector General's April 1981 report on the Office of Medical Services (OMS). Tab G has been forwarded to you. The first recommendation requires your action. This recommendation requests that:

25X1 The D/MS and DDS&T ensure that the standards and procedures for assignment of employees and dependents to [] are periodically reviewed by Agency, NSA, and, if possible, contractor management to insure both adequacy and uniformity. A previous IG survey in 1977 made essentially the same recommendation, but there is some evidence that such reviews have not been conducted in the depth desired, particularly with regard to NSA. Thorough psychological screening of dependents is clearly desirable.

25X1 I ask that you coordinate with D/MS on this recommendation to ensure that a proper review of standards and procedures for assignment of [] personnel takes place. I have also asked the D/MS to provide me progress reports on this screening process as he sees fit.
